

CASTELO ARCHAEOLOGICAL PROJECT

5 week session

July 27 - August 30 2025

3 week session

August 10 - August 30 2025

The Castelo Archaeological Project is seeking applicants for its sixth season of excavation at the site of Castelo Velho da Serra d'Ossa, and for its first season of excavation at the site of Martes. Both sites date to the **Bronze Age** and are located in the Alentejo region of Portugal. Students will be housed in the nearby town of Redondo.

We offer 3 week and 5 week sessions. Students who wish to join our **5 week session will have the unique opportunity to excavate two separate Bronze Age sites** - Martes for the first two weeks and Castelo for the final three weeks of the project.

Those interested should visit our website for further information regarding the field school. No experience necessary. Apply today!

Please direct any questions/applications to Bianca Viseu (PhD student, UNIARQ - Centre for Archaeology, University of Lisbon) at casteloproject@gmail.com
